FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Honorable Majorie Margolies-Mezvinsky
House of Representatives
1516 Longworth Building
Washington, D.C. 20515

Dear Congresswoman Margolies-Mezvinsky:

This is in reply to your letter of April 15, 1993, regarding the Notice of Proposed Rule Making (Notice) in PR Docket No. 92-235, 57 FR 54034 (1992). This Notice proposes comprehensive changes to the Commission's Rules governing the private land mobile radio services operating in the frequency bands below 512 MHz.

You are specifically concerned about the impact of these changes on radio control (R/C) hobby users. Enclosed is a discussion paper concerning our proposals for the 72-76 MHz band. In short, we expect there would be no adverse impact on R/C operations because of any proposal contained in the Notice.

We are, of course, sensitive to the concerns of both users of private land

Mr. Doron Fertig
Private Radio Bureau
Land Mobile and Microwave Division
Federal Communications Commission
1919 M Street, N.W.
Washington, D.C. 20554

Dear Mr. Fertig:

I am writing to express my concerns about the notice of proposed rule making in P.R. Docket 92-235 on the revision of regulations on the private radio land mobile radio services.

In particular, I am writing to request that the Federal Communication Commission consider the impact this rule may have on radio controlled model airplanes. Many individuals in my district have contacted me concerned about the impact this proposed change will have on model airplanes. These individuals use the 72 to 76 megahertz frequency for their airplanes and I believe that this proposal may jeopardize the availability of this radio spectrum for these users. According to my constituents, it would be very expensive to change the equipment to a new frequency and, in addition, any changes might adversely affect the safe use of these airplanes.

Thank you for considering my views as you review this proposal. I look forward to your response.

Warm regards,

Marjorie Margolies-Mezvinsky
